Abhishxk04 / README.md

# Hi, I'm Abhishek Bhardwaj 👋

I am a Computer Science undergraduate and a Data Science trainee currently building my foundation in data engineering, automation, and backend development using Python. I believe in learning by building and improving through consistent practice.

## 🔍 What I'm Currently Working On

- Data Engineering & Automation (Fellowship at LabelNest)
- Python backend development (FastAPI basics)
- Strengthening Data Structures & Algorithms through LeetCode
- Exploring Machine Learning and MLOps concepts step by step

## 🛠️ Skills & Tools

- **Languages:** Python, HTML, CSS
- **Backend:** FastAPI (basic), REST APIs

- **Data & Automation:** Selenium, Web Scraping, NumPy
- **Databases:** MongoDB, MySQL
- **Tools:** Git, GitHub, Linux
- **CS Fundamentals:** DSA, OOP, DBMS, OS, CN

## 📂 Featured Projects

- **NPTEL Course Scraper & AI-Based Study Material Generator**
  Automated scraping of course content and generation of structured study notes using Python and Selenium.

- **Logistic Regression from Scratch**
  Implemented logistic regression and gradient descent manually using NumPy to understand core ML concepts.

## 📈 Problem Solving

I regularly practice Data Structures & Algorithms on **LeetCode**, and my solutions are automatically synced to this GitHub profile.
